

Bee Smart Puzzle #5: Bee Taxonomy

Bee Smart beekeeping project

Across

- 1 Classification level below Genus (and sub-genus) ie. Apis mellifera
- 2 Species of honey bee identified as Apis _____ AKA the Eastern honey bee
- 5 Sub-species found in Crete and named after noted beekeeper Brother Adam.
- 6 Classification designation level. ie. Apis
- 8 Sub-species from Northern Europe AKA German Black Bee. First honey bee brought to the Americas.
- 11 Sub-species of A.m known as the "African" bee
- 14 The "Order" which honey bees are classified under below the "Class" Insecta
- 16 Sub-species of A.m known as the "Italian" honey bee.
- 20 Cold weather sub-species from Slovenia area of Europe.
- 21 A sub-genus below the Genus Apis

Down

- 1 Level of identification below species, ie. Apis mellifera ligustica (or abbreviated to A.m ligustica)
- 3 The "Family" in the taxonomy of bees coming below the "Order".
- 4 A sub-Genus under Apis.
- 7 Sub-species from the Georgia (near Russia) area of Caucasus Mountains.
- 9 Sub-species from Northern Africa area notably Libya
- 10 The category below a Genus in taxonomy to describe evolutionary deviations from the common, shared Genus
- 12 Sub-species from the area of South Africa. AKA the Cape bee.
- 13 Species of honey bee under sub-genus megapis. AKA the giant honey bee.
- 15 Type of honey bee classified as Genus Apis and species _____ AKA "Western Honey bee"
- 17 Sub-species from Southern Greece Noted for high honey yields and low swarming.
- 18 Is the Genus in which honey bees are classified as. "apis is also listed as a sub-genus under "Apis" (along with Micrapis and Megapis)
- 19 Sub-species found in Mediterranean AKA the Cyprus honey bee.

WORD LIST:

ADAMI	CECROPIA	INTERMISSA	SCUTELLATA
APIDAE	CERANA	LIGUSTICA	SPECIES
APIS	CYPRIA	MEGAPIS	SUBGENUS
CAPENSIS	DORSATA	MELLIFERA	SUBSPECIES
CARNICA	GENUS	MELLIFERA	
CAUCASIA	HYMENOPTERA	MICRAPIS
